

Ice Safety Policy

NOTE: The following policy covers **any and all activities** taking place on the lake while the water is frozen, including ice fishing, skating, hockey play, walking, exploring, playing, etc.

1. Rock Ridge Community Club maintains a strict "**skate at your own risk**" ice safety policy as required by our liability insurance.
2. The Board will **NEVER** verify the thickness or safety of the ice.
3. The Board has not authorized (and will never authorize) any member or any other person to verify that the ice is safe on behalf of the Board or Club.
4. The Board may send out messages when we find the ice is **CLEARLY NOT** safe; however, our failure to send such a message does not mean that the ice is safe.
5. Each person that chooses to participate in an activity on the ice is deemed to have assumed all risk in connection therewith, and to have released Rock Ridge Community Club, Inc. (and all of its members) from all liabilities and claims with respect to such act.
6. As always, we will remind parents to supervise their children at all times while on or near the lake- during all times of the year.
